

Step-by-Step Guide: Embedding a LinkedIn Learning Course in Moodle

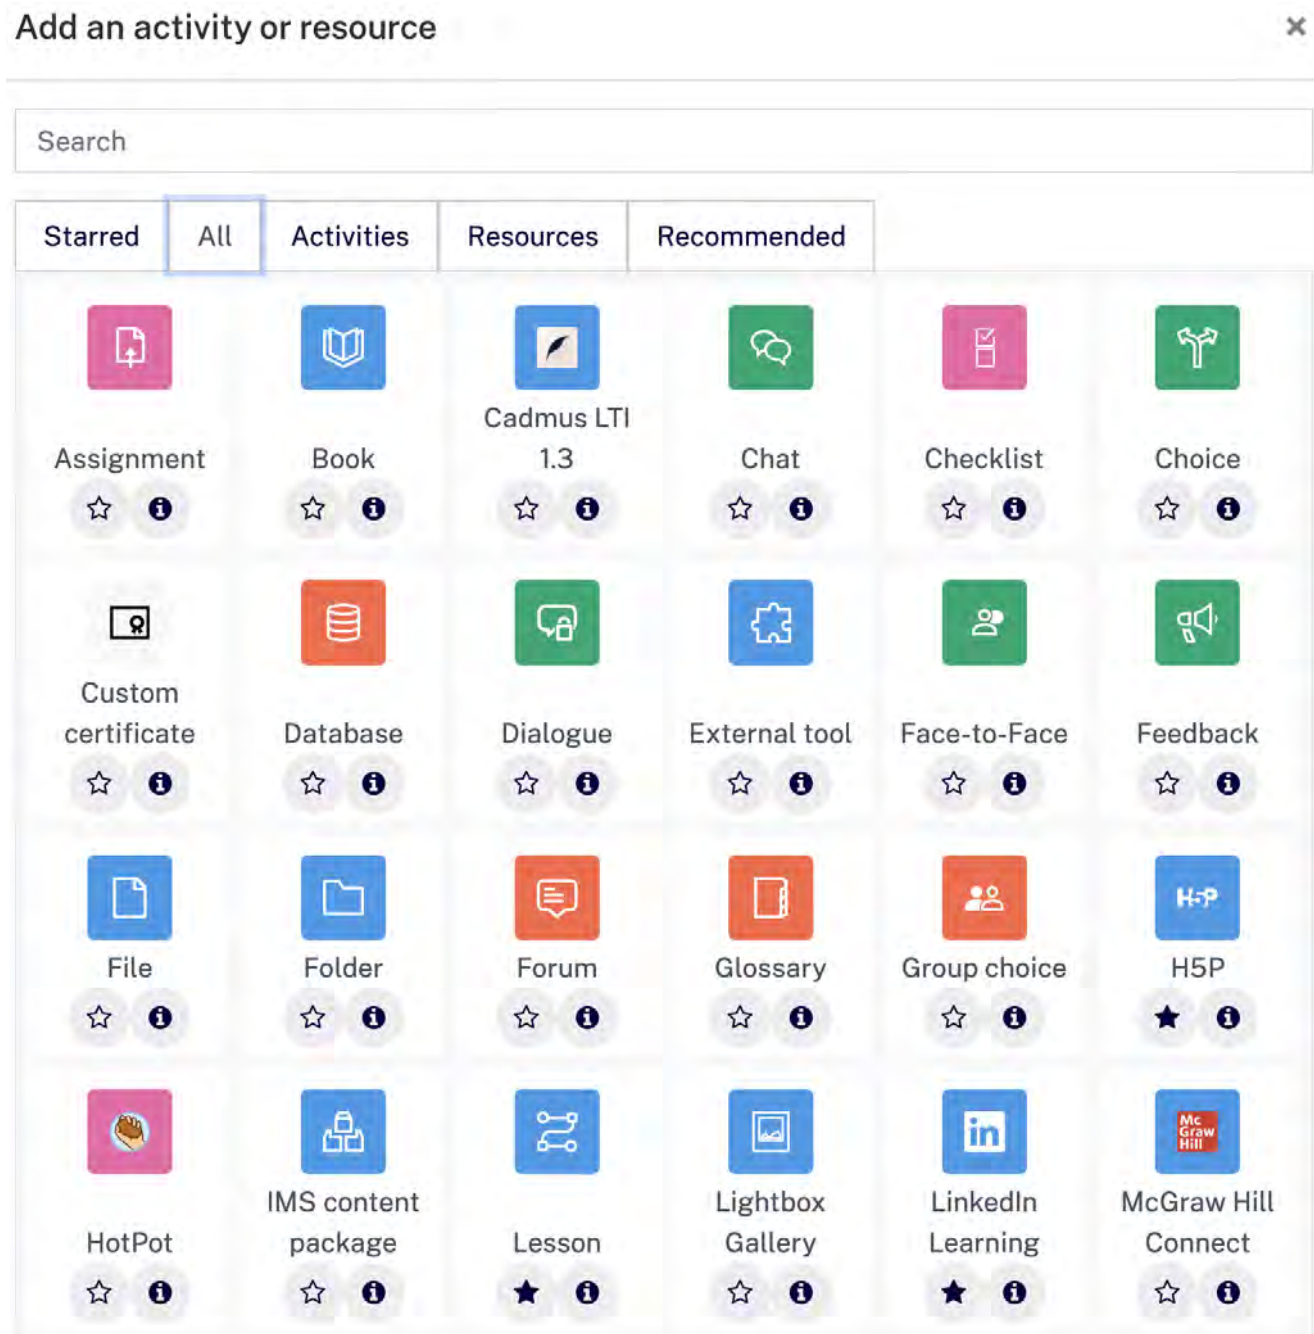

Step 1: Open Your Course and Add an Activity

In your Moodle course, scroll to the section where you want to add the LinkedIn Learning course. Click on 'Add an activity or resource'.

Step 2: Choose 'External Tool'

From the list of activities and resources, select 'External tool'. This option allows you to embed external content like LinkedIn Learning into Moodle.

Step-by-Step Guide: Embedding a LinkedIn Learning Course in Moodle

Step 3: Configure the External Tool

You'll now be taken to the setup screen. Give your activity a clear name. Then click 'Select content' to choose a LinkedIn Learning course.

Step 5: Confirm the Course Selection

After selecting your course, you'll see a summary screen. Click 'Confirm' to add the course to Moodle.

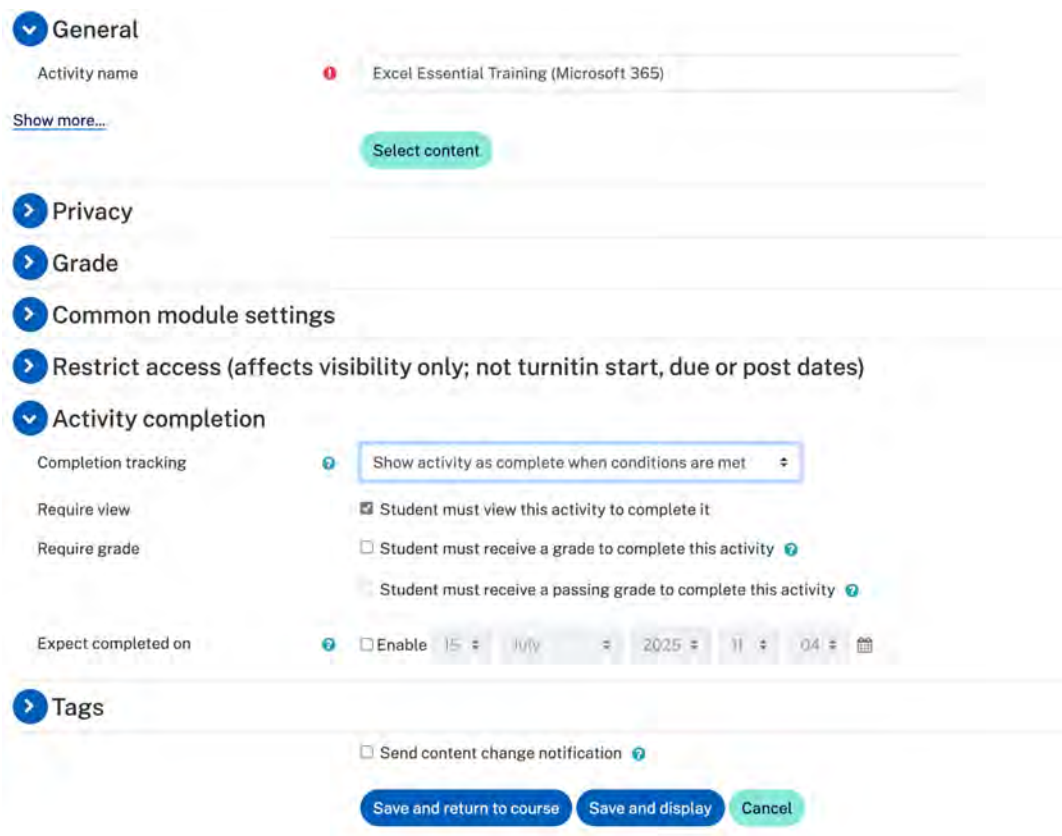

Step 6: Set Activity Completion Tracking

Scroll down to the 'Activity completion' section. Choose 'Show activity as complete when conditions are met' and tick 'Student must view this activity to complete it'.

Step 7: Review and Edit Activity Details

Check that the description and URL are populated correctly. You can customise the description that students will use.

Excel Essential Training (Microsoft 365)

Get up to speed with Microsoft Excel, the world's most popular spreadsheet program. Follow along with Excel expert Dennis Taylor as he demonstrates how to efficiently manage and analyze data with this program. You'll learn how to perform calculations with simple functions, and format the appearance of rows, columns, cells, and data. Plus, learn about accessibility features, how to work with multiple worksheets, build charts and PivotTables, and more.
